Abdelrhman Taha

Data Analyst | Excel & Power BI | Data Visualization & Business KPIs
Cairo, Cairo, Egypt

Summary

Computer Science student at Helwan National University with a strong foundation in data structures, algorithms, and problem solving. Currently an Algorithm & Problem Solving Instructor at Pixels Community, mentoring students in logical thinking and competitive programming. Skilled in Python, C, and C++, with a growing interest in Data Science and Software Development. Actively seeking internship opportunities to apply my skills and gain hands-on experience.

Experience

TechTrek

Data Analyst

August 2026 - September 2026 (2 months)

Cairo

Data Analysis Intern at TechTrek

Learned the fundamentals of data analysis through hands-on training and projects. Gained experience with Excel, SQL, Power BI, Tableau, and Python for data cleaning, analysis, visualization, and dashboard creation. Also explored machine learning basics and improved my problem-solving and analytical skills.

Pixels Egypt Org.

7 months

Algorithm & Problem Solving Instructor

February 2026 - August 2026 (7 months)

Cairo, Egypt

Algorithm & Problem Solving Instructor at Pixels Community

I help students build strong problem-solving skills by focusing on algorithms, data structures, and logical thinking. I guide learners through coding challenges and competitive programming concepts, enabling them to approach problems efficiently and systematically.

My teaching approach emphasizes understanding core concepts, practicing consistently, and developing the ability to break down complex problems into manageable steps.

Passionate about empowering others to improve their coding skills and preparing them for technical interviews and real-world challenges.
